

Diesel meter and nozzle

Code 5510
MECHANICAL METER K33

Precision $\pm 1\%$, resettable 3-digit subtotal, non resettable 6-digits total. It works also for gravity. 1" gas female input/output. Aluminium body.

Code 5525
DIGITAL METER K600

Precision $\pm 0,5\%$, non resettable 6-digit total display, and resettable 4-digits partial. Battery power 2x1,5 volt. 1" G input/output aligned. Aluminium body.

Code 5530
PULSER METER K600

Precision $\pm 0,5\%$, for external pulse transmission and management of fluid dispensed. 35 signal pulses/litre, capacity 10-100 litri/min. 1" G input/output aligned. Aluminium body.

Code 5560
K24 DIGITAL METER

Precision $\pm 1\%$, non resettable 6-digit total display, and resettable 5-digits partial. Battery power 2x1,5 volt. 1" G input/output aligned. Polyamide body.

AUTOMATIC NOZZLE

The automatic nozzle are equipped with a device that automatically shuts-off the flow when the tank is full, 1" G swivel connector. Available in various size.

Code 5800
60 l/min AUTOMATIC NOZZLE

Code 5810
80 l/min AUTOMATIC NOZZLE

Code 5820
120 l/min AUTOMATIC NOZZLE

Code 5800 ZVA
ZVA-ELAFLEX AUTOMATIC NOZZLE

Professional gun-closing dispensing fuel flow with a full tank. Equipped with a 1" swivel connector and filter inbound protection from impurities. MAX capacity 80 l/min, ideal for refuelling cars and heavy vehicles.

Code 5700
MANUAL NOZZLE

It is equipped with aluminium body, lever protection, 1" G female integrated swivel connector. It can be work also by gravity.

Accessories

Rubber high quality and resistance pipeline for distribution of diesel, complete with detachable and reusable steel links.

code 72606SL
