

Pumps

Code 5410
50 l/min electric pump for diesel

Code 5415
70 l/min electric pump for diesel

Self-priming electric vane pump for diesel fuel with by pass valve built into pumps casing, protection filter, 1" Gas filleted connectors, electric box with switch on/off, IP55 protection, motor 220 volt/50 hz or 380 volt/50 hz.

Code 5420
70 l/min electric pump for diesel

Code 5430
90 l/min electric pump for diesel

Code 4305
40 l/min electric pump for diesel
12 V (DC)

Code 4306
40 l/min electric pump for diesel
24 V (DC)

Self-priming rotary electric vane pump, equipped with by-pass valve, powerful in 12 or 24 volt versions, filleted connectors, electric box with switch on/off, power cables, incorporated fuses and pincers for connection to terminal strips.

Code 4370
70 l/min electric pump for diesel
12 V (DC)

Code 4371
70 l/min electric pump for diesel
24 V (DC)

Code 5440
Electric pump for oil
Capacity 20 l/min

Code 5445
Electric pump for oil
Capacity 40 l/min

Internal profile vane pump for oil and waste oil, equipped with adjustable by pass valve, filleted connectors, electric box with switch on/off, motor 220V (AC) / 50 hz or 380 V(AC)/50 hz.

Code 5450
Electric pump for waste oil
Capacity 10 l/min
